Tip: cut pieces for several quilts at the same time and then select pieces for each quilt. No border is needed for this quilt and no seams to match. This is a good way to use up larger scraps of fabric.

Rows 1, 3, 5, 7, 9, 11

Rows 2, 4, 6, 8, 10, 12

**Tip:**  
Consistent sizes require sewing using ¼” seams.

**Sewing Instructions:**  
Using a ¼” seam for construction, sew each row in the order shown. The first row will be even numbered, all with 10½” rectangles. The second row will be odd numbered with the first and last block being the 5½” squares. Continue until you have all rows sewn together. Press seams, using ease of construction.

This blanket can be finished using the traditional method, which uses a binding, or the ‘envelope’ method, which uses no binding. Quilting in the ditch looks nice and reinforces the blanket. Quilting ½” around the outside edges gives a more finished look when using the ‘envelope’ method.
